The Greater Dandenong Edition

Dandenong Market gets a facelift

I recently visited the refurbished Dandenong Market and was pleased to see the wonderful assortment of produce on sale.

This vibrant, multi-cultural market offers the best in meat, fish, vegetables and deli items, including organic and Asian produce. The new facilities make shopping an enjoyable experience. I encourage you to visit the market.

For more information on the Market visit

South East Melbourne Manufacturer s Alliance (SEMMA) AGM

I was a guest at the SEMMA Annual General Meeting, where I spoke about the Government's Clean Energy Future Plan, and our commitment to put a price on carbon pollution. It was great to speak directly with manufacturers to discuss this important issue. The south-east of Melbourne, including Dandenong, is home to 43% of Victoria's manufacturers. I am a strong supporter of manufacturing and will continue to consult with industry on this important issue.

New Website

My website is now live and active at www.markdreyfus.com

You can keep up to date with the latest community news, contact Mark about any concerns or queries you may have, or simply say hello. You might also like to add Mark on Facebook at <http://www.facebook.com/mark.dreyfus>

Securing employment for all

I recently visited Wallara Industries, Keysborough, to see their operations in progress. Wallara is a not-for-profit organisation which provides employment and work place training for people with an intellectual or developmental disability.

Wallara receives more than \$800,000 a year from the Federal Government's Disability Employment Assistance Program to run these valuable programs. I congratulate the staff, workers and trainees for their great approach to their jobs and thank them for showing me around their workplace. For more information on Wallara, visit www.wallaraindustries.com.au.

Delivering better childcare

The Government is committed to ensuring every child gets the best quality care and education in the critical first five years of life. As part of the National Quality Framework strategy, the following child care centres will be eligible for grants of up to \$5,000.

- A.B.C. Developmental Learning Centre - Noble Park Central
- Canberra Avenue Child Care Centre
- Keysborough Community Childrens Centre
- Noble Park Child Care Centre
- Small Ones Live and Learn Centre

Further information is available at www.mychild.gov.au

Keysborough Secondary College and Mt Hira College celebrate

Earlier this year Mt Hira celebrated the official opening of their Federally funded \$850,000 multi-purpose hall and gymnasium. I was thrilled to see the hall in use and share in the community's excitement about the benefits this facility brings to the school.

In late November I will be opening Keysborough Secondary College's new Science Centre. This \$2 million Federally funded centre will transform the teaching of science at Keysborough offering state-of-the-art learning facilities.

Remembrance Day

Remembrance Day, also known as Armistice Day, is a special day for Australians, marking the end of World War I. On 11 November, I was proud to join with residents across Isaacs to pay my respects to those who died or suffered in all wars and armed conflicts.

Tom Jones (pictured) placed a rose on behalf of prisoners of war at Edithvale/Chelsea RSL's service.

Lest we forget.

Hanover - Ride for Home

On Sunday 13 November I participated in the Hanover ConnectEast Ride for Home cycling event to raise money to Break the Cycle of Homelessness.

I joined the Event Ambassador and 2011 Tour De France star Simon Gerrans in the 75 km Challenge Ride. Around 7,100 cyclists participated in the ride. To date approximately \$300,000 has been raised

for this worthy cause. Donations will be accepted by Hanover up until 12 December 2011.

Trade Training Centre (TTC)

A site for the \$19 million Federally funded Frankston Trade Training Centre has been secured at Samuel Sherlock Reserve, next to Chisholm TAFE.

"The TTC is a fantastic facility that will be well utilised by students in Isaacs" ... Mark Dreyfus QC MP

The new trade training centre will provide students from Years 9 - 12 with access to vocational education and training, and give schools a broader range of options to improve Year 12 retention rates.

We all know that education takes many paths, including the traditional trades and new and emerging technologies and industries. This is why Trade Training Centres and programs like VCAL are so vital in providing the necessary skills for our children's future and for our economy. Thirteen schools, including Carrum Downs Secondary College and Patterson River Secondary College, have partnered with the Federal Government, Chisholm TAFE and Frankston City Council to ensure this exciting initiative comes to fruition. The Federal Government has committed \$2.5 billion over ten years to fund the Trade Training Centres in Schools Program.

Pensions increased

More than 23,900 pensioners in Isaacs have received an increase in their payments to help balance the household budget.

From 20 September, single people receiving the maximum rate of age, disability and carer pensions, received an extra \$19.50 a fortnight. Pensioner couples combined on the maximum rate received an extra \$29.60 a fortnight. If you would like my latest version of the Pensioners and Seniors Information Kit, please give me a call on 9769 1955.

National Disability Insurance Scheme

The Government is laying the foundations for a National Disability Insurance Scheme (NDIS) which will entitle all Australians to support in the event of significant disability.

- Australians with significant disability will get the kind of care and support Australians expect for them.
- Australians who acquire a disability or whose child is born with a disability will get the helping hand they need.

If you would like more information on the NDIS please contact me on 9769 1955.

Plain Packaging Cigarettes

Tobacco use is Australia's single largest cause of premature death and disease, killing 15,000 Australians a year and costing our economy \$31.5 billion.

Example of plain packaging of cigarettes

On Thursday 10 November 2011, the *Plain Packaging* legislation was approved by the Senate. This legislation is a world first and sends a clear message that the glamour is gone – from 1 December 2012 all tobacco products sold in Australia will be in plain packaging displaying images showing the consequences of smoking.

In Australia, smoking causes 84% of new lung cancers in men and 77% in women.

For help in quitting smoking, consult your doctor or call the Quitline on 13 78 48.

Signing the Plain Packaging Pledge on World No Tobacco Day

Education Tax Refund

Eligible parents will now be able to claim 50% of the cost of uniforms, in addition to the existing education expenses included in the Education Tax Refund. Eligible parents should keep receipts for uniforms purchased from July 1 of this year so those items can be included in their tax refund claim next year. For more information on other items that can be claimed, visit www.australia.gov.au/educationtaxrefund.

How I can help you

I am available to help you and your family with any problems you may encounter dealing with Federal Government departments and agencies, such as Medicare, Centrelink, citizenship, higher education or aged care.
